

Easy Tipping

*Transform the tipping experience for your valet team
A Seamless, Cashless, Instant Gratitude Solution*

Tipping Challenges in Valet Services

- Guests may not carry cash or small bills for tips
- Valet attendants might miss out on tips, affecting morale and retention
- Time spent managing cash tipping pools adds administrative burden
- Unreported or missing tips create confusion and distrust

Tipping in valet operations can be complicated for guests and staff alike. Cashless guests often miss opportunities to tip, leading to lost revenue and frustration for everyone providing valet service.

A Modern Tipping Experience

Easy Tipping offers an innovative, seamless, and cashless way for guests to express gratitude to your valet team instantly.

- Tip with your phone—no app or signup required
- Instant payouts to valet attendants, same day
- Auto-prompt guests for Google Reviews or performance feedback for team members
- Transparent, secure, and trackable
- No costs to your valet service to implement

Team Accounts

Managing tip pools in valet operations can be complex for both management and staff. Easy Tipping simplifies and enhances the process with powerful team account features:

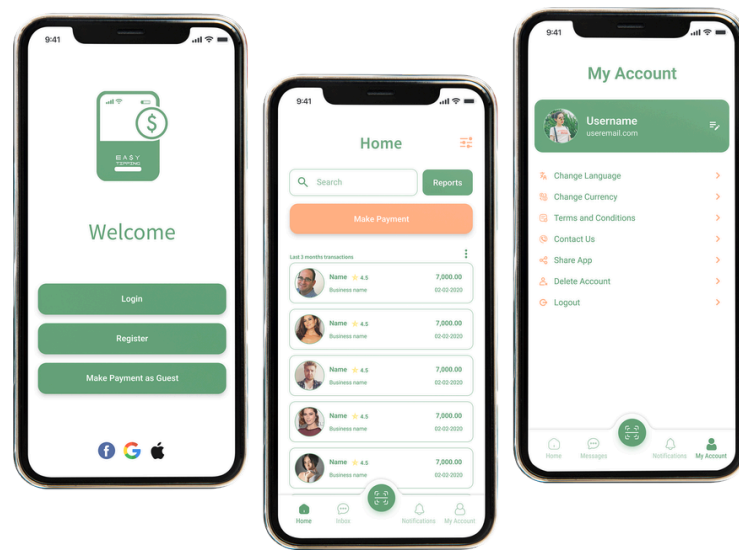

Team Account Features

- Multiple Tip Pools – Create separate pooling accounts for valet shifts or locations (e.g., Day Shift, Night Shift, Front Entrance, VIP Area).
- Flexible Account Setup – The account owner defines payout frequency, manages valet team membership, and ensures smooth operations.
- Admin Support – Up to five additional managers or supervisors can be added as admins to support account management.
- Unique QR Codes – Each valet receives a personalized QR code linked to the team's tip pool for direct, secure tipping.
- Real-Time Dashboard – Managers and admins can monitor tips received by each valet, track guest ratings, feedback, and reviews.
- Performance Insights – Built-in reporting provides insights on valet performance and customer satisfaction, helping identify top performers.
- Transparency & Trust – Tip pooling data is visible and auditable, building confidence among valets and management.
